PORTÉGÉ M800

The 13.3" white pearl-coloured laptop

The Portégé M800 brings you the best of all worlds. Innovative design to please the style purist. Light and slim form factor for improved mobility. Plus the functionality of a serious business laptop. Design features include a white pearl finish with silver contrasts, Touch Pad with white LED outline, latchless lid and rounded corners. Onboard is Intel® Centrino® 2 Processor Technology*, Genuine Windows Vista® Business, Intel® GMA graphics, a DVD SuperMulti drive and a 13.3" Toshiba TruBrite® widescreen. Weighing in at just 2 kg*, the Portégé M800 provides a simply beautiful way to work.

NEW FLUSH TOUCH PAD

Fully integrated: the white LED-outlined Touch Pad fits seamlessly into palmrest with no raised edges.

MULTIMEDIA BUTTONS

Instant access: touch-sensitive buttons with white LED backlights provide intuitive control of multimedia entertainment.

FINGERPRINT READER*

Security made simpler: biometric Fingerprint Reader gives fast, convenient authentication for all system passwords.

SLEEP-AND-CHARGE

Leave chargers at home: new USB connection lets you charge PDA, phone, MP3 player or other devices via the laptop even when it's switched off.

WEB CAMERA

Easier communication: 1.3 Megapixel web camera and microphone support video-conferencing and high-quality voice calls over IP networks.

* depending on configuration

CPU performance may vary from specifications under certain conditions such as the use of battery instead of AC power, certain external peripherals, certain multimedia applications or network connections, complex modelling software and in areas with low air pressure at high altitude (1,000 metres above sea level) and/or certain temperatures. CPU performance may also vary from specifications due to design configuration. Under some conditions, your computer may automatically shut down as a normal protective measure. To avoid risk of lost data, please make periodic back-up copies. For optimum performance, use your computer only under recommended conditions. Please read detailed restrictions in the product resource guide, visit the Toshiba web site: computers.toshiba-europe.com and/or contact Toshiba Technical Support. • Graphics processor unit (GPU) performance may vary depending on product model, design configuration, applications, power management settings and features utilized. • Part of the main system memory may be used by the graphics system and therefore reduce the amount of main system memory available. • For PCs configured with 4 GB of system memory, the full system memory space for computing activities will be considerably less and will vary by model and system configuration. • For information about upgrading your system memory please refer to the user manual or contact your local Toshiba service provider. • One GB means one billion bytes; accessible capacity may be less. • Wired and wireless communication capabilities to be applied in countries where approved. • Battery life may vary depending on applications, power management settings and features utilized. Recharge time varies depending on usage. Battery may not charge while computer is consuming full power. After a period of time, the battery will lose its ability to perform at maximum capacity and will need to be replaced. This is normal for all batteries. To purchase a new battery pack, see your accessories information that shipped with your computer or visit the Toshiba web site at computers.toshiba-europe.com. • Small bright dots may appear on your TFT display when you turn on your PC. Your display contains an extremely large number of thin-film transistors (TFT) and is manufactured using high-precision technology. Any small bright dots that may appear on your display are an intrinsic characteristic of the TFT manufacturing technology. • Weight may vary depending on product configuration, vendor components, manufacturing variability and options selected. • Please check your system specifications to ensure optimal results. • Certain notebook chassis are designed to accommodate all possible configurations for an entire product series. Your selected model may not have all the features and specifications corresponding to all of the icons or switches shown on the notebook chassis.
