

Slim yet powerful: laptops for mobility trendsetters

Toshiba adds ultra-portable and stylish Satellite T110 and Satellite T130 to its consumer laptop range

Neuss, Germany, 9th October 2009 – The new ultra-slim Satellite T110 and Satellite T130 are Toshiba's latest additions to its ultraportable laptop range. They are targeted at dynamic and style-conscious consumers wishing to have a laptop with the thrilling combination of very light weight, true portability and great performance. The new models allow for content consumption and also creation, while on the move. The exceptional battery life of both devices reaches more than a working day without the need to recharge. The 11.6" (29.5 cm) Satellite T110 and 13.3" (33.8 cm) Satellite T130 will be available during 4th quarter 2009 throughout Europe, Middle East and Africa.

"Our new ultra-slim laptops now bridge the gap between small mini-notebooks like our Mini NB200, which are optimised for content consumption, and full performance ultra-mobile laptops like our Satellite U500," says Thomas Teckentrup, General Manager, Toshiba Computer Systems Division Europe.

Designed to get the "Wow" factor

As most consumers value their small mobile devices as very personal companions and want them to reflect their own personality, both newcomers come in either an elegant Precious Black or a more eye-catching Iron Red Metallic with a stylish patterned slick finish. The Satellite T130 is also available in a third version featuring an exotic Luxe White Pearl with a pattern. When opened, the devices keep their design promise - the colour on the cover and patterns are also repeated inside the laptop.

On... and on... and on

With the Satellite T110 and Satellite T130, mobile users no longer need to worry about running out of battery when they are out and

Satellite T130

Facts & Figures¹

Ultraportable and slim
13.3" (33.8 cm) Satellite T130

- Brilliant 13.3" Trubrite LED backlit display with a resolution of 1366 x 768 pixels for a pin-sharp picture
- Only 22.2mm thin at the front and 34.2mm at the back
- Battery life: up to 11 hours
- Weight: less than 1.8 kg
- Available in Precious Black, Iron Red Metallic, Luxe White Pearl with pattern
- Connectivity: WLAN (IEEE 802.11 a/b/g/n), Bluetooth 2.1 + EDR, Mobile Broadband ready
- Embedded media adapter compatible with 5 memory card sizes
- Hard disk drive with up to 500 GB with 3D impact sensor for data protection in case of a drop or shocks
- Memory: up to 8 GB DDR3 (800 MHz)

about. Despite its compact design the Satellite T110 offers a full working day's use on one battery charge, with up to 9 hours. The Satellite T130 runs even longer without having to recharge the battery – up to 11 hours, enough for the most demanding user.

Usability is enhanced by features like the full-size keyboard and a touch pad with Multi-Touch Control, that facilitates scrolling and other often used operational functions. And last but not least network configuration is no longer a challenge: with Toshiba ConfigFree™ users do not need any specialist knowledge to configure online access via WLAN, Bluetooth or Mobile Broadband.

Time to get organised...

Both new devices are equipped with a brand new, Toshiba-developed application suite called Toshiba LifeSpace. It puts an end to the unsystematic mess of shortcuts on users' computer desktops, and gives consumers a personalised approach to accessing their files, and organising daily activities or projects.

Sustainable and eco-friendly for a modern lifestyle

As a responsible global corporate citizen, Toshiba ensures that all laptops are RoHS-compliant, effectively reducing the environmental impact by restricting the use of lead, mercury and certain other hazardous substances. Additionally the Toshiba Eco utility helps to reduce power consumption, and makes users aware of the power their laptop is using. The Toshiba Satellite T110 and the Satellite T130 are ENERGY STAR® 5.0 qualified.
